## **Considerations regarding Summer School Course Selection**

- Students who want to increase their GPA can register even though they are successful by taking grades with courses/courses that they have failed or never taken from their lower semesters.

- In summer teaching, a student can take 3 courses from a university or other university during a summer semester. In the 2022-2023 Summer School.
- The total course load that the student will receive from summer education cannot exceed 9 courses for undergraduate programs, 5 courses for associate degree programs.
- In case the student requests to take courses from the upper semesters, within the scope of Article 28/3 of the Istanbul Okan University Associate Degree and Undergraduate Education and Examination Regulation, "Students who have taken all the courses in the curriculum of the past semesters, who have been successful and have not failed the course, but whose Cumulative Grade Point Average (GPA) is 3.00 and above can take a course from the upper semesters.

The student can also take up to an additional 3 courses (including lesson 3) from summer teaching only if the following conditions exist;

- If the fourth semester for associate degree programs and the eighth semester for undergraduate programs have been completed,
- The limit of 5 (five) courses for Associate Degree programs, 9 (nine) courses for Undergraduate programs should have been used in previous summer education, 9 course credit loads should have been used in summer education,
- If 90% of the total course credit load required for graduation has been achieved
