Head of Periodontology Department

Information on Theoretical Education and Clinical Training:

- Theoretical education is prepared as a hybrid. Follow the course list to be announced, whether the courses are conducted through the O'Learn system or face-to-face.
- To be considered successful in the periodontology course, the average of the determined percentages of the Clinical Training Score, Midterm and Final Exams must be at least 60.
Clinical Training Score :%15
Mid-term Exams :%35
Final Exam : %50 effect on success score.
- In order to be considered successful in the Clinical Training, the passing score must be at least 60. Students who would not be able to complete successfully their Clinical Training cannot be eligible to take the Final Exam. Calculation of this score is based on completed the periodontal treatment with the approval of the assistant professor, sterilization rules, ideal working with hand tools, working position, correct and complete material, ideal application of the indicated treatment, oral hygiene instructions and follow-up, indication and theoretical knowledge, timely participation in training, patient communication, professional communication, self-care rules, etc.
- Periodontology Department term supervisor of 4th grades is Assist. Prof. Nihal Eraydın. You can contact nihal.eraydin@okan.edu.tr for your questions and support.
